

What is

Choice advice?

Offering Nottinghamshire families free and impartial advice around school admissions and school admission appeals.

Changing or starting schools can be an exciting time for young people and their families, especially when moving up to secondary school. There is much to consider and plan for but navigating the admissions process should not be something that families need to worry about.

A **Choice Adviser** can help families be clearer about:

- where to apply
- when to apply
- any application closing dates
- the coordinated admission scheme
- common application forms
- supplementary forms
- catchment areas
- school admission policies
- Ofsted reports
- school uniform policies.

School Admission Appeals

An Adviser can also support families if their application has been refused and they feel they would like to lodge an appeal. We can also explain any issues such as whether a waiting list is likely to be available.

The Parent Partnership Service Choice Adviser will be happy to discuss all your questions and queries with you. Ring us for further information.
